PROFESSIONAL SUMMARY

MERN stack developer (fresher) who has built and deployed full-stack applications including a WebRTC video-conferencing platform, a trading-platform clone and an Airbnb-style booking app. Experienced in REST APIs, JWT/session authentication, real-time communication with Socket.io, payment integration (Razorpay) and deployment on Render. Prize and medal winner at a competition (18 Nov 2025). Seeking an entry-level MERN Stack Developer role.

TECHNICAL SKILLS

Frontend: React.js (Vite), HTML5, CSS3, JavaScript (ES6+), Material UI, EJS, Chart.js
Backend: Node.js, Express.js, REST APIs, Socket.io, WebRTC (signaling), Passport.js, JWT, bcrypt
Database: MongoDB, Mongoose, SQL
Tools & Others: Git & GitHub, Render (deployment), Cloudinary, Razorpay, Postman

PROJECTS

Real-Time Video Conferencing Platform | *React (Vite), Material UI, Node.js, Express, Socket.io, WebRTC, MongoDB* GitHub | Live Demo

- Built a Zoom/Google Meet-style platform with real-time multi-user video calls, screen sharing with seamless camera switch-back, and in-call live chat.
- Implemented the WebRTC peer-to-peer signaling flow (offers, answers, ICE candidates) through a Socket.io signaling server.
- Added JWT-style token authentication with bcrypt password hashing, per-user meeting history and guest join; fully responsive UI; deployed on Render.

Zerodha Clone – Trading Platform | *React (Vite), Node.js, Express, MongoDB, JWT, Chart.js* GitHub | Live Demo

- Developed a full-stack trading platform from landing page to live dashboard with secure signup/login and protected routes.
- Built a live watchlist with Buy/Sell order execution, and Holdings, Positions and Orders synced with a real backend; interactive portfolio charts; deployed on Render.

Wanderlust – Accommodation Booking Platform | *Node.js, Express, MongoDB, EJS, Passport.js, Cloudinary* GitHub | Live Demo

- Built an Airbnb-inspired booking app using MVC architecture, RESTful routing, and session-based authentication with Passport.js.
- Integrated Cloudinary for image uploads and management; deployed live on Render.

Allama Shibli Nomani Portfolio Website | *HTML, CSS, JavaScript, Razorpay* Live Demo

- Designed and developed the official portfolio website for Allama Shibli Nomani, selected for this responsibility and awarded a certificate of appreciation.
- Built with HTML, CSS and JavaScript and integrated live Razorpay payments; participated in a competition on 18 November 2025 and won a prize and medal.

Online Voting System | *SQL, .Net ,CSS*

- Built a web-based voting platform with secure registration, login and vote casting; implemented REST APIs for voting logic and result computation.

CERTIFICATIONS & ACHIEVEMENTS

- Prize and medal – competition participation, 18 November 2025 (Allama Shibli Nomani portfolio website).
- Certificate of Appreciation – developing the Allama Shibli Nomani portfolio website.
- 5-Day Workshop Certificate – Laravel Framework; attended two technical workshops on web development.

EDUCATION

Master of Computer Applications (MCA) – Pursuing
Lovely Professional University (LPU), Punjab, India

Bachelor of Computer Applications (BCA) — CGPA: 8
Shibli National College | 2023-26
